flashterm[®]
to be on good terms

For poets

Words ...

Root of all knowledge, cradle of creativity,
foundation of all human interaction,
expression of the desire for understanding,
contradiction of singularity, inventiveness
of language, shattering the complexity of
our world, identity-giving inspiration
behind value-oriented decisions ...

A reflection of what has gone before.

Redefine your organization's words.
Use your potential, discover the magic
of language, uncover beauty, experience
knowledge beyond mere definition,
convey values, build bridges, tear down
barriers, create a shared language,
foster identity, optimize communication ...
know synergy in perfection.

Terminology management
more than managing words

flashterm
more than terminology management

be your own poet
be as smart as flashterm

For pragmatists

Unlimited languages: Choose from 195 pre-defined languages or add more

OneScreen and OneClick principle: Clarity, structure and design – making the complex amazingly simple

Search function with various filter options: Search quickly, across all languages, and only find what you're looking for

Assign subject areas and categorizations: Data structuring down to the last detail

Personalized list of Bookmarks: Avoid repeated searches

WatchList: Spare your colleagues unnecessary searches – create and distribute lists, optimize collaboration

Integrated research browser and OneClick hyperlink navigation: Help everyone get where they need to go with a minimum of effort

Integrated communication tool: The software provides a platform for interactive communication about each term

Linked concepts: Link concepts, expand horizons

Matching: Put together what belongs together

Log book, metamorphosis: Detailed change logs with smart visualization

Weighting: You decide which synonymous designations are to be used as a preference, as alternatives, internally only or not at all

The screenshot displays the Terminology Management System (TMS) interface. At the top, there is a search bar with the query '*a*' and 't' in the language dropdown. Below the search bar, there are filter tabs: Marker List, Subject Area Filter, Categories Filter, Admin Filter, and Status Filter. The main content area is divided into several sections:

- Hit List *143* en:** A list of search results including 'technical terms', 'television broadcast system', 'Tempo flash.', 'Term', 'Turtle', 'Velocity flash.', 'Velocity of light', 'Water', 'week of gestation', and 'wind generator'.
- Preferred Term & Concept Definition en:** A detailed view of the preferred term 'Velocity'. It includes a definition: 'Speed – also known as velocity – is defined as the ratio of the distance travelled over the time taken to do so.' It also lists 'flashterm – speed redefined:' and 'flashterm – efficiency in perfection'. A note mentions 'Instant, dynamic search results displayed as you type.' and 'Consistent use of OneClick technology for efficient research and terminology management.' A lock reason is provided: '1) Lock Reason: imprecise usage'.
- Terms en:** A list of related terms in English: 'Velocity' (noun), 'Speed' (noun), 'Rate' (noun), and 'Quickness' (noun).
- Terms de:** A list of related terms in German: 'Velocitas *' (noun), 'Geschwindigkeit' (noun), 'Bahngeschwindigkeit' (noun), 'Schwindigkeit' (noun), and 'Tempo' (noun).
- Metadata:** A section showing a lightning bolt image and the subject area 'flashterm' and concept '100 843'.
- Equivalents [Special Language]:** A table listing equivalent terms in various languages:

Language	Term
ar-DZ	سرعة
da	Hastighed
de	Velocitas
el	ταχύτητα
en	Velocity
es	Rapidez
fr	Vitesse
it	Velocità
zh	速度

Variety: Differentiate weighting in the context of different target groups

TermInspector (optional): A database-synchronized checking tool for MS Word, offering reliable-detection of incorrect terminology usage in Word documents

Extensive user/rights management: Because not everyone can or should do everything

Web interface (optional): Worldwide, software-independent, password-protected database access via browser. Go global!

A range of export options: crossTerm, MultiTerm, TBX, XML ...

Accessible via: PC / Mac, iPhone, iPad, browser
